

**Conference and District Assignment Policies and Procedures
2026-27 and 2027-28 Realignment**

The policies and procedures for the 2026-27 and 2027-28 Reclassification and Realignment process have been updated since the last Realignment process so please read carefully. Below you will find information on how to determine and report your school's enrollment, including students in alternative education schools/programs, conference and district placement, and the appeal process. As always, if you have any questions regarding any step in the Realignment process, please contact UIL.

I. GENERAL ENROLLMENT INFORMATION

The League office shall obtain enrollment data in grades 9-12 for participant schools and verify the enrollment submissions.

Schools shall be assigned to a conference on the basis of enrollment on a date from October in an odd numbered year.

A. Enrollment Calculation Formulas

1. Fulltime students, students receiving an average of four (4) hours or more of instruction per day, shall be counted as one (1) student each. Students attending school less than fulltime, students receiving less than four (4) hours of instruction per day, shall be counted as a half (1/2) student each. Students who have **graduated from high school**, but continue to receive services from your district SHOULD NOT be included in your enrollment submission. The PEIMS coding for these student should confirm the student has been graduated after meeting all graduation requirements. Students enrolled in grades nine through twelve who have **NOT** graduated from high school SHOULD be included in your enrollment submission regardless of age.

Homeschool students are not counted in the snapshot count for realignment purposes.

2. Schools with four (4) high school grades (9-12), or three (3) high school grades (10-12) which can easily determine the ninth graders the school will receive, shall calculate enrollment as follows:
 - a. Enrollment = Grades 9 + 10 + 11 + 12
 - b. For schools wishing to play Conference A football, see *II UIL Conferences, A. Conference Makeup(3b)* below.
3. Schools with three (3) high school grades (10-12) which cannot easily determine the ninth graders the school will receive shall calculate enrollment as follows:
 - a. Enrollment = Grades (10 + 11 + 12) x 1.33
4. Schools with only grades 11-12 which cannot easily determine the tenth graders the school will receive shall calculate enrollment as follows:
 - a. Enrollment = Grades (11 + 12) x 2
5. Schools that opened during the current alignment period and are currently participating in activities will take the number of grades they currently have and enrollment will be calculated as follows:

- a. Enrollment = Grades (9 + 10) x 2
- b. Enrollment = Grades (9 + 10 + 11) x 1.33

6. New schools

- a. New schools opening or entering competition in the first year of an alignment period shall have their conference assignment determined by the following:
 - i. Opening or entering with one (1) grade: Enrollment (projected or actual) multiplied by 2.
 - ii. Opening or entering with two (2) grades: Enrollment (projected or actual) multiplied by 1.33.
 - iii. Opening or entering with three (3) grades: Enrollment (projected or actual) multiplied by 1.33.
 - iv. Opening or entering with four (4) grades: Enrollment (projected or actual)
- b. New schools opening or entering competition in the second year of an alignment shall have their conference assignment determined (for varsity activities in which they participate) by the enrollment (projected or actual) with which they open.
- c. Existing schools affected by the opening of a new school, which will open or did open in the first or second year of an alignment period, will have their conference assignment determined based on their projected enrollment for the coming school year.

7. Students in Alternative Schools

For purposes of UIL Reclassification and Realignment, generally, alternative schools are schools without defined attendance zones. Alternative schools include (but may not be limited to): discipline alternative education programs, juvenile justice alternative education programs, juvenile detention centers, county jails, drop-out prevention and drop-out recovery schools, credit recovery schools, schools of choice, ISD charters, high school equivalency (GED) programs, career and technical education campuses, early college campuses, T-STEM campuses, men's/women's leadership academies, multiple school district cooperative schools, virtual/hybrid campuses, or other ISD schools that do not have defined attendance zones from which they draw their students.

Whether or not an alternative school/program has its own Texas Education Agency (TEA) Public Education Information Management System (PEIMS) code is, for UIL enrollment reporting purposes, not relevant when determining the school at which a student should be counted. All students enrolled in a school district should be counted at a participating UIL member school.

- a. UIL Member Alternative Schools
 - i. Alternative schools that are participating member schools in UIL will have all of their students count toward the enrollment at the member alternative school.
 - ii. Member alternative schools, which allow students to return to a traditional school to compete in a division of UIL activities, must account for all of those students who return to a traditional school for participation with a completed New Student Eligibility

Questionnaire (page 1 of the Previous Athletic Participation Form). Each of those students shall count in the alternative school enrollment and the traditional school enrollment at which the student participates.

- b. Non-member Alternative Schools
 - i. Alternative schools that are not participating member schools in UIL are required to report students toward the enrollment of the traditional school each student would have attended based on the residence of the parents of said student or to the school the student would attend by ISD policy if they were not enrolled in the alternative school.
 - c. For school districts with only one traditional high school, the enrollments for any alternative schools will be added to the traditional high school's enrollment for determining the conference assignment for the traditional high school.
8. Single gender schools shall double the total number students enrolled in grades 9-12.

II. UIL CONFERENCES

A. Conference Makeup

- I. Conference 6A shall consist of a minimum of 220 schools and a maximum of 250 schools participating in football, not including schools choosing to opt up to 6A.
- II. Conferences 2A through 5A shall consist of a minimum of 200 schools, to the best extent possible, such that the enrollment ratio in grades 9-12 between the largest school and the smallest school in that conference is approximately 2.0.
- III. Conference A shall consist of all schools with an enrollment of 104.9 or lower (grades 9-12 enrollment numbers.)

 - II. Schools with over 104.9 in grades 9-12, AND that are CURRENTLY participating in six-man football, may use an alternative calculation method to determine if they may continue in Conference A football. Alternative calculation methods (football only) are:
 - a. Grades 8-11
 - b. Grades 7-10

- c. Grades 9-10 doubled
- III. These alternative calculations apply only to six-man football. For all other activities, schools are placed in 2A based on their grades 9-12 enrollment.
